Instructions for Alphabet Lotto:

Hand out one Lotto Card to each player. Place the letters face down on the table. One person should be the 'caller'. The caller should turn over a letter and say aloud its sound, showing the letter to the other players. Players then find that letter on their own cards. The first person to cover the middle and four corners OR any five letters in a row

—horizontally, vertically, or diagonally—is the winner. Use counters or 'M&M's'.

NOTE: Always say the letter SOUNDS as well as the letter names. For example you could say..“this is the letter C (pronounced 'see'), which sounds like 'c' as in cat.” This is important for later on when they begin to spell words phonetically

Teacher Notes:

When they turn over a letter, ask them to name a word which begins with that sound.

Point out that every word has a vowel in it. (a,e,i,o,u). I call these the 'special letters'. How many vowels are in their name? (y is also used occasionally as a vowel, eg 'by'). Can they spot the 5 vowels on their Bingo Card?

Have fun beginning to spell three letter words. Take 2 vowels, (a,e,i,o,u) and 5 consonants (that's all the other letters that aren't vowels), and see if they can spell out words. Each word must have two consonants and one vowel. Take turns using other vowels & consonants.

Words to spell with the short 'a' vowel: bag, bat, can, cat, etc

Words to spell with the short 'e' vowel: beg, met, pet, vet etc

Words to spell with the short 'i' vowel: big, dig, hit etc

Words to spell with the short 'o' vowel: got, not, dot, etc

Words to spell with the short 'u' vowel: dug, mug, hug etc

Print an extra set of letters on coloured card, and play 'Matching Pairs'.
